• Another solid heifer bull here. Use with confidence. Daughters should be productive easy keeping cows that milk just right for our environment.

• Wow, you could put together one very nice set of consistent heifer bulls with these Fra Prefix bulls. Help yourselves here, and don't forget the daughters will be in great demand with maternal and calving ease bred in.

Camp 1A Ranch Testimonial...

"I purchased and fed a group of 133 calves all sired by Camp 1A Red Angus Bulls and fed them along side our home raised calves. The Camp 1A sired calves went to market at 13 months of age with 78% choice and prime and 97% YG 1's, 2's and 3's. I was very pleased with their performance, disposition and carcass data. So much so, I have purchased a group of Camp 1A females to add to our cow herd."

Stan Keller, owner and manager of Albert Keller Farms Inc., St. Francis, KS.

We look forward to seeing you on Wednesday, February 25, 2009. If we can be of assistance, feel free to call us.
