• Camp 1A Mark U823 - This stylish moderate framed, heavy muscled bull is in the top 25% for growth numbers. His mother is now deceased but she produced some of the most eye appealing calves we ever had. This bull had to make out on his own after his mother died mid summer - so how good is he??

• Camp 1A Ribeye U832 is sired by LCC Ribeye. We discussed forming a partnership on this bull's sire with ABS when he sold in the Ludvigson sale a few years ago, that's how much we thought of him. He has raised some of our best bull calves. U832 ranks in the top 10% for weaning, yearling, milk, total maternal, and ribeye. If you like your calves to be stretchy and stout with tons of rib, and a mild disposition, this young stud is for you.
