• Camp 1A Mr. C Advance U828 is a full sib to Lot # 70 and is out of the famed Crystal donor cow. When you combine the power of 121R and the maternal feminine Crystal cow you are destined to get great herd bulls. This bull will sire the meaty, growthy calves that will be competitive in the feedyard. Don't miss this chance to double up on the consistency of these two matings for your terminal programs.

• Camp 1A Advance U817 is another Advance 121R that is out of one of our donor cows that has produced embryos for 3 registered herds now, Lonkers, Biebers, and Camp 1A. This Bieber bred cow is out of Bieber Red Moon and a Bieber Design daughter. This very productive cow makes them long, deep and thick. She is a very feminine cow with a lot of angularity and that cow look. 121R's power was a great compliment to her. This bull is in the top 25% of the breed for ribeye.
