• GRU 5013W is one nice balanced, moderate, thick ended bull that is out of a terrific dam and the proven ABS A.I. sire In Focus. Calving ease, growth, milk and carcass traits can all be found in this good looking bull. 5013's dam ranks in the top 20% of the Angus breed for weaning weight, yearling weight, milk and \$ Beef Value. In Focus ranks in the top 20% of the breed for the same exact traits while being an easy calving bull! Don't miss 5013 or his full brother, Lot 50.

• GRU 531W may be just a tick thicker and deeper ribbed than his full brother Lot 50. We will have many more full brothers to this mating next year and we are very excited. The In Focus X Rita 5013 was a good mating and we are very high on the dam to these bulls. Circle S Rita 5013 was our pick of the females a few years back at the Circle S Angus production sale. Don't miss this bull, he is a good one!

• GRU 7370W combines some great genetics for moderate birth weights, growth, and carcass traits. Dam ranks in the top 25% of the breed for growth and \$B Index. Sire is an Origen/ABS sire that ranks in the top 5% of the breed for WW EPD while also ranking in the top 1% of the breed for \$Beef Index. 7370W is a deep bodied, thick ended bull that has certainly grown very well.
