• Camp 1A V130 - The sire of this group, Camp 1A Mr. Advance is our lead herd sire that we raised. He is out of an outstanding cow from the Bieber Program. Mr. Advance's sire is the legendary Perks Advance 121R bull that Piepers made famous. V130 is the first bull of this group. He is a very smooth made bull, very square in his hip, and has plenty of bone and muscle. His EPD profile is exactly what we strive for, moderate birth, high growth, cow country milk, all rapped up in a moderate thick package. The dam has a 102 MPPA. Very solid herd sire here.

• Camp 1A Mr. Advance V113 - This Mr. Advance son is out of a cow that we selected from the Faylor Red Angus program. Faylor's have been breeding Red Angus on the high plains since before any of us were born. The dam side of this bull is an outstanding female. She is broody, angular, with perfect udder and feet. This bull has a balanced EPD profile, and will get your attention in person. He would be an excellent outcross to all the Canyon bred reds out there.

• Camp 1A Mr. Advance V123 - Heifer bull buyers take note here. This is an outstanding Mr. Advance son that has look, and a balanced EPD profile. He traces back to the Bloxy cow family from Leachmans. His Grand Dam was one of our selections at the Leachman dispersal sale in Montana a few years ago. Ask us about our proven track record of helping our bred heifer sales customers in marketing large volumes of bred heifers bred to our red bulls. You don't have to sacrifice the first calf crop with the right kind of heifer bulls.

**PERKS Advance 121R**  
**For Reference Only - His influence sells.**

• Camp 1A Mr. Advance V136 is out of one of Cody's show heifers. As you would expect coming from the Advance line, and a Camp 1A show heifer alumni is very stylish. This is Darrell's favorite bull. This is a heifer bull candidate that will make some very nice calves. He has the "Camp 1A" balanced EPD profile. His pedigree includes Schuler, Buffalo Creek, Boot Jack Ranch, Lonker, Leachman and now Camp 1A in his heritage. The Granddam of this bull is Lonk Emu Mar, she not only had a distinguished show career herself, but also ended up being one of the top producing cows we have ever owned (now deceased).
