• AKF Makin Beef V901 - the opportunity to buy a Makin hay son with this much power that combines Makin Hays calving ease with marios growth and Crystal's maternal does not come along very often. This super stout bull has plenty of eye appeal as you will see. He could work in heifers and then easily graduate to your cows. His heifer calves will be in demand as replacements and the steers should yield premiums on value base grids. his EPD profile would put most major A.I. bulls to shame. This bull comes to us from the Albert Keller Farms in St. Francis, where Stan has put together a very nice herd using Camp 1A females as the nucleus. Stan is a very experienced cow man, and cattle feeder. He got his interest in Red Angus by feeding out Red Angus sired calves, how cool is that. Don't miss this bull.

LCC Major League
For Reference Only - His influence sells.

• Camp 1A Major V145 - Here are 3 bull ET sibs (Lots 68, 69 and 70). Ranchers, if you want to add consistency, added value, and good looks to your calves, triple down here and you can't go wrong. These are Major League x Bieber Gallee's and are the 3 best ET calves from that mating. Don't let the actual birth throw you, these 3 are heifer bull candidates. They are ET calves out of recip cows. Note the double positive carcass traits, very hard to get. Major League needs no introduction, and he is trusted again.
