Sharon Springs, KS 67758  
*Directions on page five.*

## *Schedule*

LUNCH – 11:30 AM MTN  
SALE – 1 PM MTN

*Call anytime to view bulls prior to sale.*

## WELCOME TO OUR 32<sup>ND</sup> ANNUAL PRODUCTION SALE.

We've enjoyed selling genetics for over 40 years and have met many great friends and cattle producers. We value each person who has taken the time to invest in our genetics. We have many contacts in the **BEEF INDUSTRY** and will try to align you with any programs that boost your bottom line. We want to help you **MAKE MONEY**. We are different than many other bull suppliers. We run a commercial cowherd right beside our registered cows and we grow and finish many of the progeny. We couldn't imagine buying bulls from operations that have no idea how their cattle gain and perform on the rail. Over the last 7 years, our cattle have averaged 96% Choice or higher on grade while hitting 63.5 to 65% dressing percent. Discounts are becoming harsh for unknown genetics that don't have a proven track record for health, performance and carcass traits.

At Grund Beef Genetics we put a huge focus on the **FEMALE**. The #1 profit trait in the beef business is still **FERTILITY!** We are again, very pleased to be ranked in the TOP 15 breeders in the US for **DAM OF MERIT** females. To qualify for a **DAM OF MERIT** award a cow must rank in the top 5% of the breed for production traits. It's a true test of **FERTILITY** and **MATERNAL** superiority for a female to qualify for this program. We offer Balancer, Sim x Angus, Red Angus and Gelbvieh genetics to help your crossbreeding program. No one breed can offer all traits to stay profitable in today's complex beef industry.

We are always pleased to watch and receive data from our customers. It's not uncommon to see our customers topping feeder calf sales, or also collecting premiums on fat cattle grids. We are members of the Top Dollar Angus Program. Our Balancer, Sim x Angus and Red Angus bulls that qualify for the Top Dollar Angus Program can help our customers market their calves in the Top Dollar Angus system and collect premiums. Over the past year we have had **GRU EARLY ENCOUNTER 536E** and **GRU GUNFIGHT 402G** be recognized as Top 25 – A.I. sires in the breed. In 2023 we also entered a few steers in the American Gelbvieh Foundation-Feeding Trial and received 2nd place overall with one of those steers.

We are excited about the offering this year. You will find some of the time-tested genetics of previous years plus many bulls with **NEW** outcross genetics. Hybrid Vigor and Heterosis will be on display with these bulls! We are again offering our sight-unseen program as noted in the catalog. The bull offering will be videoed and these videos can be seen on [www.grundbeefgenetics.com](http://www.grundbeefgenetics.com) or [www.dvauction.com](http://www.dvauction.com).

We are again planning to have an open house preview of the bulls in the afternoon - the weekend before the sale. February 24th and 25th – watch our Facebook page for details. If you would like to view the bulls some other time, please give us a call. We hope to see you on Wednesday, February 28th!

*Grund Beef Genetics*

# Sale Information

## ACCOMODATIONS

There are several nice motels in the area. If you need assistance please contact us (785) 821-1022 or (785) 821-1104.

## TERMS & CONDITIONS:

All cattle sell under the standard Terms and Conditions for each respective breed association.

## MAIL OR PHONE BIDS:

If you are unable to attend the sale, please contact any of the sale representatives, auctioneer or owners. They will handle your bids confidentially and as if you were in attendance. You may bid online at [DVAuction.com](http://DVAuction.com).

## ANNOUNCEMENTS:

All announcements made from the auction block sale day take precedence over any printed material in this catalog.

## INSURANCE:

Livestock Mortality Insurance will be available sale day with Coffman Liggett, (540) 383 - 7134.

## VIEWING:

The bulls can be viewed any time – please call, (785) 821-1022 and make sure we are around the Ranch to show you the bulls.

## TRUCKING:

Direct all concerns to the seller of the bulls for assistance in trucking cattle have proper papers for interstate shipping.

## DVAUCTION:

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "create new account" tab.
  2. Apply for bidding by clicking "apply for bidding" in the upper left corner of your screen, at least 24 hours prior to the auction.
  3. Tune into the sale and make your purchase!
- For general questions please contact our office:  
(402) 316-5460 or [support@dvauction.com](mailto:support@dvauction.com). High speed internet access is required.

## GUARANTEE:

All bulls selling for \$3500 or more are guaranteed for the first breeding season. A breeding season is defined as a 90-day period following the first turn out date of the bull. This is not an insurance policy. If a bull develops a problem, proper treatment or vet care is advised. If a replacement bull is available, he will be provided. If the buyer prefers no replacement bull, we will provide credit towards another bull in the following year, less the salvage value of the injured bull. Please notify us as soon as possible should a death or injury occur.

## SIGHT- UNSEEN GUARANTEE:

If you are unable to attend the sale, we are offering a sight – unseen-program. We also will be broadcasting the sale on DV Auction to allow you to see a video of the bulls selling. We have also arranged a different set of eyes to talk to you about the bulls. These guys will give you an honest opinion on the bulls. Nick Wells 785-443-0233 and Jim Williams, 308-222-0170.

## EXPECTED PROGENY DIFFERENCES

### DO THEY MATTER?

We are proud of the genetic improvement and years of performance data that are showcased in these bulls EPD's. The bulls are weighed and adjusted to the age of the calf. They are put into contemporary groups and then ranked against each other. Once weights are taken, the bulls EPD's reflect the performance information from the bull, his sire, dam and other relatives along with genomic information. EPD's change weekly since breeders throughout the country submit weights and measurements yearly. Taking this information into account, comparison is most accurate when using EPD's instead of individual weights.

**I DON'T WANT CALVING ISSUES:** 14 and above on CED

**I'M ONLY INTERESTED IN POUNDS AT WEANING:** 67 and above on Weaning Weight

**I BACKGROUND MY CALVES AND SELL AT 800#'S:** 105 and above on Yearling Weight

**I WANT REPLACEMENT HEIFERS** - 20 and above on Milk

# UNDERSTANDING *the stamps*

Selection of a bull for your operation is one of the most important jobs that will impact your operation for years to come. Visual appraisal continues to be an important tool when choosing your next herd sire. However, genetic predictions, especially with the progression of genomics has helped us be more accurate in predicting how his calves will perform. We at Grund Beef Genetics believe you CAN have both phenotype and performance! To help on the genetic selection side, we have helped simplify genetic selection this year through these unique "stamps" based upon the EPD's and pedigrees of the bulls selling.

## CALVING EASE STAMP

We strive to produce young sires that will rank in the Top 20% of the breed for Calving Ease Direct (CED) that grow fast and add pounds in the right package. CED is the most important indicator to help ensure less difficulties when calving, the bulls with a Calving Ease stamp in the catalog are ones deemed safe for use on first calf heifers.

## MATERNAL STAMP

Maternal traits are essential for profitability in the cattle industry. If you are keeping replacement heifers, the bulls with a Maternal stamp have had their dam or granddam receive Dam of Merit or Dam of Distinction honors. Of all cows in the Gelbvieh Association, only the top 5% qualify for Dam of Merit and top 1% for Dam of Distinction!

## TOP DOLLAR ANGUS

As referenced throughout the catalog, we are proud to be partners in Top Dollar Angus. To feed a growing world, it's our job as producers to produce a high-quality product. Growth, feedlot performance and carcass merit will continue to be important in the cattle business. Bulls with this stamp qualify for the Top Dollar Angus program with details by their name.

## IGENITY – 50K

No matter the goals of your operation, you want to be sure your next herd sire breeds true to his EPDS when making breeding decisions. The Igenity stamp recognizes the bulls that have been 50K DNA tested for genomically enhanced EPD. Bulls with this stamp have higher accuracy EPDs.

# MATERNAL SUPERIORITY

Our number 1 goal at **GRUND BEEF GENETICS** is to provide you with the highest quality herd sire that will add profit to your bottom line. Not only do these herd sires excel in the economically relevant traits that will add value to your calf crop, but they are backed by some of the most prolific mothers within the breed.

The American Gelbvieh Association honors females in the herdbook that display fertility and maternal superiority through the Dam of Merit program. Of the 40,132 active cows in the AGA herdbook, only 5% of the females qualify. **GRUND BEEF GENETICS** and family rank **11th amongst all active breeders for total number of Dam of Merit Females**. All great cowherds start with a strong foundation, rest assured these bulls are backed by some of the best females in the breed.

**WITH OVER 95% CHOICE OR  
HIGHER QUALITY GRADE**

# UNDERSTANDING THE *Feeding*

All the bulls are fed at **GRUND BEEF GENETICS** – which allows us to keep the cattle in their natural surroundings and away from other feedlot cattle that could expose the bulls to numerous diseases found in a feedlot setting. The bulls also have a large pen for exercise. The bulls are weaned on a moderate energy ration and then are fed a denser ration for November, December and January. The bulls are weighed and ultrasounded the first of February and then are moved back to a moderate energy ration until sale time.

We feel that 90 days of feeding a denser feed allows the bulls to sort themselves in terms of growth traits which is reflected in their EPD's once weights are taken. The bull's individual weights and pedigree helps determine his EPD's. Our bulls typically ultrasound 0.15 to 0.20 backfat and are ready to breed cows at turnout time!

FEED	AS FED/ #'S PER DAY	% OF RATION
Sorghum Sudangrass	6.5#	27%
Corn Silage/ Whole Corn	16#	42%
Wet Distillers grain	11#	30%
Mineral/grain Supplement	0.50#	1%

**WW 756**

Homo Black – Homo Polled – 967L is an exciting bull and he is ELITE in the breed. In a search for Balancer bulls that were 40% GV and higher, only 6 bulls can match the elite EPD status of GRU Leg Up 967L. 967L is a nice balanced, deep ribbed, thick topped bull. He will sire top end calves! 967L ranks in the top 5% of the breed for growth and FPI. He also ranks in the top 10% of the breed for marbling. The cow family behind 967L is one of our tops in terms of carcass traits. The young mother of 967L has ratioed a 112 on weaning with a 372 day calving interval on 3 calves. If you like premiums on feeder cattle, fat cattle, or terrific maternal traits – look no further.

Double Black – Double Polled – 1023L is a stout, thick made bull with a good design. Another bull raised by a 1st calf heifer – out of our new herd sire Rock. 1023L ranks in the top 15% of the breed for calving ease, growth traits and FPI. 1023L is another bull that is bred for calving ease – but with limited calves on the young cow family we aren't proclaiming him a no miss heifer bull.

Double Black – Double Polled – 723L has always been a favorite. He's a good looking, thick, deep ribbed and the best part is a great Disposition. We always sell our best disposition bull in honor of our Dad and Grandpa. 723L brings a lot to the table as he ranks in the top 20% of the breed for growth and started out at 79# birth weight. We could use your help getting good 4-H kids from this area to apply for this yearly scholarship!

## LAYAL GRUND MEMORIAL 4-H SCHOLARSHIP

**LOT 51** is our choice of the Layal Grund Memorial 4-H Scholarship. 50% of the proceeds on Lot 51 will fund 4-H scholarships for students in Western Kansas, Eastern Colorado. Layal Grund was proud to live in western Kansas and always supported the 4-H program. Layal always liked good disposition cattle and Lot 51 was chosen for his great disposition. Layal truly enjoyed visiting with our bull customers and seeing the genetics advancements made each year. Layal always said good disposition cattle made the cow business enjoyable. Information on the scholarship can be found at **WWW.GRUNDBEEFGENTICS.COM**.
